Insured persons and their employers must take part without charge in the enforcement of the social insurance acts. Anyone who claims insurance benefits must provide, free of charge, all information needed to justify the claim and determine the insurance benefits (Art. 28 paragraph 1 and 2 of the Federal Act on the General Part of Social Insurance Law [ATSG] of 6 October 2000). Any significant change in the circumstances which determine a benefit must be notified immediately unto the Gemeinsame Einrichtung KVG by the persons who draw the benefits, their members of family or third parties who receive such benefits (cf. Art. 31 paragraph 1 ATSG).

Please note that a culpable violation of the above-mentioned obligation to cooperate and/or obligation to report leads to a retroactive change in the benefits resulting in a recovery of these benefits (cf. Art. 25 paragraph 1 ATSG). The general provisions of the penal code as well as Art. 6 of the Federal Act of 22 March 1974 on the administrative criminal law apply (Art. 79 paragraph 1 ATSG).

The signatory agrees that the Gemeinsame Einrichtung KVG transmits the Swiss social security numbers for persons with mutual benefits assistance named in the questionnaire to the Central Compensation Office (CCO) in Geneva. The Central Compensation Office provides the Gemeinsame Einrichtung KVG with information whether a pension (without indicating the type and amount of the pension) is paid out and the beginning of the possible receipt.

I, hereby, confirm that the above statements have been made truthfully and completely and that I have read and understood the enclosure on the benefits assistance in Switzerland.

Information sheet for benefits assistance in Switzerland (responsibilities and consequences of non-compliance)

Please pay careful attention to the following information. With your signature on the questionnaire you confirm that you have answered the questions completely and truthfully and that you have read and understood this information sheet.

Why a questionnaire?

By means of the details you have given us on your questionnaire, we will assess whether benefits assistance in respect of illness, recreational accident and maternity is possible for you or whether an obligation to be insured in Switzerland exists. For example, an obligation to be insured in Switzerland exists if you are employed in Switzerland or draw a Swiss pension – independent of the amount of your income. Children have to be insured in Switzerland if at least one parent is obliged to be insured in Switzerland because he/she is employed here.

Benefits assistance for children is possible until the age of 18 unless they have taken up further education or studies in which case it is extended to the age of 25. In exceptional cases this can be extended further. We reserve the right to request details of further education or studies.

What happens if an obligation to be insured in Switzerland exists?

Should the registration for benefits assistance have to be denied, the responsible cantonal authority will be informed. Basically, the responsibility to ensure the adherence to insurance requirements lies with this authority (Art. 6 KVG).

Why do I have to communicate changes immediately?

In Switzerland it is only possible to take out health insurance retrospectively for a maximum of three months. Therefore, it is important for you to inform us about changes without delay.

What happens if I communicate changes too late?

If you do not duly inform us, you risk an insurance gap between the end of your health insurance abroad and the beginning of your insurance cover in Switzerland. This can lead to a situation where you will have to pay for medical costs yourself which occur during the insurance gap.

Even without medical treatment during the time in question, an interruption of your insurance protection can have considerable consequences in respect of future claims to benefits or insurance cover.
